## Professional Summary

---

Mobile and full-stack developer specializing in Flutter and modern backend technologies including Supabase and Firebase. Experienced in delivering production-grade applications across healthcare, retail, and fintech, with a focus on performance, scalable architecture, and clean cross-platform user experiences.

## Technical Skills

---

**Languages & Frameworks:** Flutter, Java, Kotlin, JavaScript, HTML, CSS

**Databases & Backend:** Supabase, PostgreSQL, Firebase, SQL, Golang, AWS

**Tools & Technologies:** Git, Riverpod, Vite, Wasabi

## Experience

---

### Advanced Payment Solutions AU

Jan 2026 – Present

*Software Development Engineer 1 (Full-time)*

- Developing and maintaining payment solution products as a full-time SDE 1, contributing across the stack
- Building scalable, secure features for fintech applications and collaborating with cross-functional teams to deliver production releases

### Shanif Tech Solutions

Jun 2025 – Nov 2025

*Mobile App Developer Intern*

- Developed mobile applications including a Clinic Management app and Petrol Pump Management System
- Built end-to-end solutions using Flutter for frontend and Supabase for backend services
- Integrated Wasabi cloud storage for efficient data and file handling across applications

### HVAC Simulation System

Jan 2025 – Apr 2025

*Sponsored Project - Silicon Stack*

- Built a web-based HVAC simulation system with real-time data communication via MQTT and WebSockets
- Developed responsive frontend with React and Vite, integrated with FastAPI backend and Supabase database
- Used Redux for efficient state management across the simulation interface

## Projects

---

**TableTaly** | *Flutter, Riverpod, Supabase* | [TableTaly.com](https://TableTaly.com)

2026

- Complete restaurant POS system with employee management and multi-restaurant support per company
- Implemented invoicing, inventory tracking, sales and item reports, and table management
- Currently in active use across restaurants in Qatar, supporting multi-location centralized management

**Utilbase Invoice** | *Flutter, Riverpod, SQLite* | [Play Store](https://play.google.com/store/apps/details?id=com.utilbase.invoice)

2026

- Offline-first invoice and billing app for freelancers and small businesses, published on the Play Store
- Generates tax-compliant PDF invoices with GST/VAT support across 8+ countries and multi-currency billing
- Implemented payment tracking and client management with local SQLite storage and Riverpod state management

**Lead Management System Mobile** | *Flutter, Supabase, Riverpod*

2025

- Comprehensive lead management mobile app built for a freelance client with lead tracking, CRM, and sales pipeline features
- Built with Flutter using Riverpod for state management and Supabase for real-time data synchronization

## Education

---

**Savitribai Phule Pune University**

2021 – 2025

*Bachelor of Engineering in Electronics and Telecommunication Engineering*

CGPA: 7.80/10

## Certifications

---

**Introduction to SQL & Intermediate SQL** - Datacamp

**Android App Development Bootcamp** - Udemy

**Data Structures & Algorithms** - Codedamn

**Enhancing Soft Skills & Personality** - NPTEL
